

Financial Controller

Brabrand, Denmark.

Are you passionate about finance and digital transformation and would you like to play a key role in shaping the financial future of an international growth company?

At DAFA, we are looking for a Financial Controller who thrives on both numbers and innovation. In this role, you'll ensure financial accuracy while helping drive digital initiatives that make the finance function more data driven, automated, and insightful.

Controlling with focus on development, digitalization and collaboration

Reporting to the Group Finance Manager, you will become part of the Danish finance team consisting of seven colleagues. The role offers a combination of independent tasks and close collaboration with colleagues in Denmark and abroad.

Your daily work will include both traditional controlling responsibilities and digital development projects, where you map processes, identify improvement opportunities, and implement new solutions. DAFA is currently advancing the digitalization and automation of the finance function from developing the ERP system to using Power BI for more data driven reporting and analysis. The company is also exploring AI tools to enhance data insights and automate traditional controlling tasks. As a Financial Controller, you will play a key role in driving this digital transformation.

Your main responsibilities will include

- Preparation of monthly, quarterly, and annual financial statements for the group
- Consolidation across the group's entities in Denmark and internationally
- Budgeting, forecasting, and ongoing financial follow-up
- Key performance indicators, variance analyses, and management reporting
- Participation in audit processes and dialogue with auditors
- Tax and transfer pricing tasks in collaboration with external advisors
- Participation in digitalization and process optimization projects
- Close dialogue and sparring with leaders across countries and functions

Why join DAFA?

At DAFA, you will be part of a dynamic culture driven by ambition, collaboration, and curiosity. You'll have the opportunity to influence the ongoing development of the finance function through both your professional expertise and technological insight and contribute to an organization where financial acumen and digital solutions play a key role in driving growth. You will also gain a close sparring partner in an experienced Group Finance Manager who values knowledge sharing and initiative.

Financial Controller

Financial Controller with a focus on development and digitalization

We imagine that you have a few years of experience as an auditor or Financial Controller. Perhaps you have worked with international manufacturing or industrial companies and are ready to take the next step from advisory to an in-house operational role.

You thrive with responsibility and are curious about how systems, processes, and data can be continuously improved. You are motivated by creating insight through numbers and enjoy working in an environment with many points of contact across the business.

We expect that you have

- A relevant degree such as MSc in Accounting, HD-R, or similar
- Solid knowledge of accounting and controlling
- Experience with digitalization and development processes
- Strong business understanding and analytical skills
- A natural curiosity and proactive mindset
- Solid system skills, including experience with ERP systems, Power BI, and Excel
- Strong communication skills in both Danish and English

Who we are

Making small invisible changes with a big impact...

At DAFA, we seal, we absorb, and we protect.

With a passion for foam and rubber, we are specialized in making small invisible changes with a big impact. We seal cold air from hot air – and absorb sound to create silence. We dampen vibrations, and we protect objects against shocks and damage. And while our products may seem unnoticeable, they are always irreplaceable.

It all started in 1939 in Denmark.

What began as an entrepreneurial family business producing sealing strips of bronze has today expanded into an international operation – manufacturing the unimaginable across three continents. We cut, we print, and we innovate new solutions. From small nose pads for face masks to protecting large wind turbine blades during transportation, we combine cutting-edge production equipment with great engineering skills and know-how to develop solutions geared to the demands of the future.

But it all begins with our people.

Engineers, operators, or quality controllers. At DAFA, everyone is a master of their craft, united into a culture like a family. Our ambitions are global, but our values are practical and local.

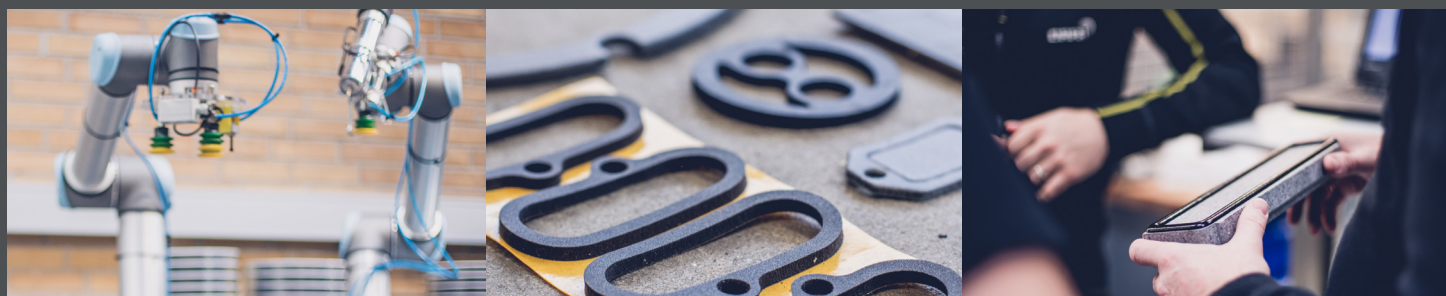

World-class solutions driven by our passion for innovation and sustainability.

Like our products, being visible to the world is not the most important for us. We simply care about being good at what we do and the difference we can make. We go to work every day to earn the trust of each other and our customers – together shaping the future of manufacturing by pushing the industry standards for quality and more sustainability.

We want our 'invisible' products to bring a noticeable impact and make DAFA the best in the world at what we do. Seal, absorb, and protect. One innovative solution at a time.
