

Production Manager

- Operational leadership in an international industrial group

Do you want to play a key role in strengthening and developing production in a global growth company?

As Production Manager at DAFA, you will drive change, build structure, and ensure high efficiency in production. This role is crucial in unlocking the department's potential, while also respecting and maintaining the strong family spirit that characterizes the culture.

You will report directly to the Group COO and lead a committed team of 40 employees.

Your key competences will include:

- Overall management and oversight of production operations and warehouse logistics, including responsibility for raw materials, finished goods, and fixed assets.
- Collaborate closely with the Maintenance Manager on planning and coordinating maintenance activities related to production equipment and warehouse infrastructure.
- Optimization of production and warehouse resources to maximize efficiency, value, and profitability.
- Together with your production and warehouse team you should be able to identify and implement continuous improvements.

Experienced Production Manager

You are an experienced production leader with a solid background in manufacturing. You bring strong expertise within production and warehouse management, supported by knowledge of modern production methods such as lean manufacturing and continuous improvement. A relevant higher education, e.g. in Production Engineering or Value Stream Management, is an advantage, though practical leadership experience is paramount. You are proficient in systems such as Microsoft AX and Office applications and can translate operational data into effective decisions that drive efficiency, structure, and performance.

On a personal level, you are a resilient leader who stands firm in times of change. You balance a structured, systematic mindset with the ability to motivate your team and build commitment across all levels of the organization. Strong communication skills enable you to engage employees, colleagues, and stakeholders, while your results-oriented approach ensures that improvements. You are collaborative and hands-on, leading by example while maintaining a clear strategic focus.

We offer

At DAFA, we offer an exciting leadership opportunity in a company with a solid foundation and ambitious growth plans. As a Danish organization with a flat hierarchy and a collaborative mindset, DAFA fosters a culture of openness, trust, and shared responsibility. You will join an experienced management team energized by recent new hires, giving you strong organizational support and the chance to make a real impact. With international exposure, close collaboration across global teams, and a clear mandate to drive change, this role offers excellent opportunities for both professional and personal development.

Who we are

Making small invisible changes with a big impact...

At DAFA, we seal, we absorb, and we protect.

With a passion for foam and rubber, we are specialized in making small invisible changes with a big impact. We seal cold air from hot air – and absorb sound to create silence. We dampen vibrations, and we protect objects against shocks and damage. And while our products may seem unnoticeable, they are always irreplaceable.

It all started in 1939 in Denmark.

What began as an entrepreneurial family business producing sealing strips of bronze has today expanded into an international operation – manufacturing the unimaginable across three continents. We cut, we print, and we innovate new solutions. From small nose pads for face masks to protecting large wind turbine blades during transportation, we combine cutting-edge production equipment with great engineering skills and know-how to develop solutions geared to the demands of the future.

But it all begins with our people.

Engineers, operators, or quality controllers. At DAFA, everyone is a master of their craft, united into a culture like a family. Our ambitions are global, but our values are practical and local.

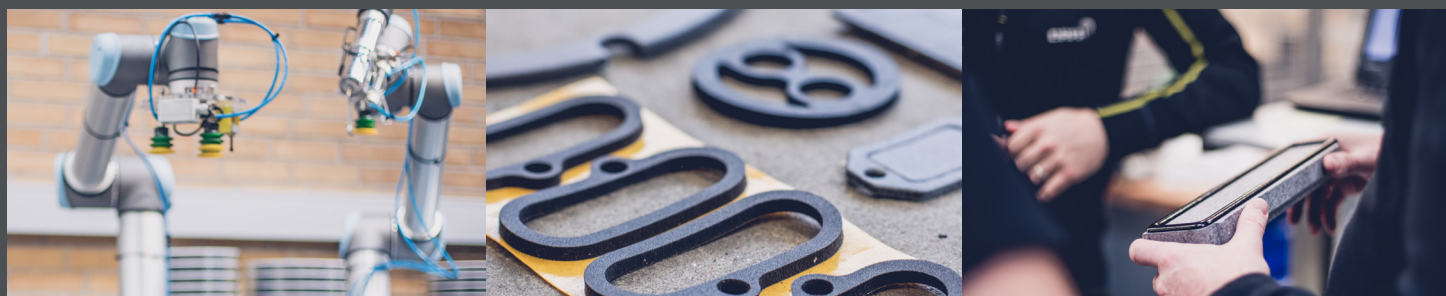

World-class solutions driven by our passion for innovation and sustainability.

Like our products, being visible to the world is not the most important for us. We simply care about being good at what we do and the difference we can make. We go to work every day to earn the trust of each other and our customers – together shaping the future of manufacturing by pushing the industry standards for quality and more sustainability.

We want our 'invisible' products to bring a noticeable impact and make DAFA the best in the world at what we do. Seal, absorb, and protect. One innovative solution at a time.
