

## Making small invisible changes with a big impact...

At DAFA, we seal, we absorb, and we protect

With a passion for foam and rubber, we are specialized in making small invisible changes with a big impact. We seal cold air from hot air - and absorb sound to create silence. We dampen vibrations, and we protect objects against shocks and damage. And while our products may seem unnoticeable, they are always irreplaceable.

### It all started in 1939 in Denmark.

What began as an entrepreneurial family business producing sealing strips of bronze has today expanded into an international operation - manufacturing the unimaginable across three continents. We cut, we print, and we innovate new solutions. From small nose pads for face masks to protecting large wind turbine blades during transportation, we combine cutting-edge production equipment with great engineering skills and know-how to develop solutions geared to the demands of the future.

### But it all begins with our people.

Engineers, operators, or quality controllers. At DAFA, everyone is a master of their craft, united into a culture like a family. Our ambitions are global, but our values are practical and local.

### World-class solutions driven by our passion for innovation and sustainability.

Like our products, being visible to the world is not the most important for us. We simply care about being good at what we do and the difference we can make. We go to work every day to earn the trust of each other and our customers - together shaping the future of manufacturing by pushing the industry standards for quality and more sustainability.

We want our 'invisible' products to bring a noticeable impact and make DAFA the best in the world at what we do. Seal, absorb, and protect. One innovative solution at a time.

#### Our mission

DAFA offers sustainable, enduring solutions which seal, absorb, and protect. Our goal is to become our customers' preferred supplier and for them to experience added value by working with DAFA.

#### Our aspiration

We aspire to be the preferred and most sustainable "large small" solution expert within foam and rubber for European industrials.

#### Our values

- We are customer, business, and result-oriented
- We take responsibility
- We make things happen
- We are passionate about what we do

#### Our dream

To secure your success with our solutions.
