

Master Data Manager / Project Manager

Brabrand, Denmark

Can YOU take master data to the next level? Can you ensure the overall workflows and create new guidelines for this area? Do you also thrive on handling administrative updates yourself? Interested? ... then read on...

About the role

With direct reference to the CFO, you will, as Master Data Manager, be responsible for developing, structuring, and maintaining DAFA's master data processes and workflows across functions and legal entities. You will act as a link between the business, management, and operational departments, and you will have a broad range of stakeholders across the organization.

Your primary responsibilities will include:

- Drive and coordinate the work of updating and structuring master data
- Develop and implement guidelines and governance for the creation and maintenance of master data
- Prioritize and plan the sequence of data updates and improvement initiatives
- Ensure clear communication and anchoring of new processes across the organization
- Handle the daily operational execution of changes and maintenance in the ERP system
- Work closely with management and the organization's various professional areas
- Contribute to the future transition from AX2012 to Microsoft D365FSCM with a focus on data quality and data migration

You will be the only fully dedicated employee responsible for master data, giving you significant influence and a unique opportunity to make your mark in this area.

Your qualifications:

We imagine that you bring both broad and deep experience in Master Data Management, preferably from a manufacturing company or another complex organization with many interfaces. In addition, we would like you to:

- Understand the full value chain and the connection between processes, systems, and data
- Work in a structured way with a focus on quality and continuous improvement
- Thrive in both strategic and operational tasks
- Be self-driven, resilient, and good at building relationships across the organization
- Have experience with ERP systems, preferably AX2012 and/or Microsoft D365FSCM
- Communicate fluently in both Danish and English, in writing and verbally

A relevant educational background in IT, finance, business development, or a related field is an advantage, but practical experience, the right mindset, and a strong track record will be highly valued.

Master Data Manager / Project Manager

What DAFA offers:

- Strong opportunities for professional and personal development, and the chance to shape the future of master data
- To become part of a global working environment
- A workplace with a strong focus on transparency, customer focus, and high employee well-being

Who we are

Making small invisible changes with a big impact...

At DAFA, we seal, we absorb, and we protect.

With a passion for foam and rubber, we are specialized in making small invisible changes with a big impact. We seal cold air from hot air - and absorb sound to create silence. We dampen vibrations, and we protect objects against shocks and damage. And while our products may seem unnoticeable, they are always irreplaceable.

It all started in 1939 in Denmark.

What began as an entrepreneurial family business producing sealing strips of bronze has today expanded into an international operation - manufacturing the unimaginable across three continents. We cut, we print, and we innovate new solutions. From small nose pads for face masks to protecting large wind turbine blades during transportation, we combine cutting-edge production equipment with great engineering skills and know-how to develop solutions geared to the demands of the future.

But it all begins with our people.

Engineers, operators, or quality controllers. At DAFA, everyone is a master of their craft, united into a culture like a family. Our ambitions are global, but our values are practical and local.

World-class solutions driven by our passion for innovation and sustainability.

Like our products, being visible to the world is not the most important for us. We simply care about being good at what we do and the difference we can make. We go to work every day to earn the trust of each other and our customers - together shaping the future of manufacturing by pushing the industry standards for quality and more sustainability.

We want our 'invisible' products to bring a noticeable impact and make DAFA the best in the world at what we do. Seal, absorb, and protect. One innovative solution at a time.
